

Please see the steps below for the  
**Industry Skills Statement for  
Academically Qualified Persons**

This service will look to provide a comparison to the UK framework, and a Primary Source Verification of your overseas award to assist with a CSCS, LISS, SKILLcard or ECS card.

1

Create an account at [www.ecctis.com/register](http://www.ecctis.com/register) and order an **Industry Skills Statement for Academically Qualified Persons**.

2

On the user portal, upload your: final certificate; transcripts; translations; letter of authorisation and passport.  
Please only send scanned copies or photographs. Do not send originals.

3

We will review your application and if your qualification is eligible for the service you will be requested to make the Service payment of £184.50 + VAT (£221.40)

4

We will then begin the comparison of your award to the UK Frameworks, and carry out a Primary Source Verification check.

5

In some instances, you may be required to contact your institution to assist with the Primary Source Verification check.

6

Once the comparison and the verification is complete a formal assessment will be sent to you via to the post.

The '**Next Steps**' section on the report will give you guidance on whether you can present this directly to CSCS/LISS/JIB-PMES/SKILLcard/ECS, or if you are required to do any additional training to meet the required UK standards for your chosen occupation.
