New User Friendly BALI Website

The British Association of Landscape Industries (BALI) is pleased to announce the launch of a new website at www.bali.org.uk. Developed as a user friendly site, which aims to appeal to both the landscape professional and the garden consumer, the main aim of the new website is to promote the fantastic level of services provided by the BALI Membership.

The homepage on www.bali.org.uk makes the process of finding a BALI Member extremely simple, the user simply enters the project postcode and then selects what type of Landscape service they require Designers, Landscapers, Suppliers or a combination of all of these. The user will then be shown a list of local BALI members with further details and also, to complement the member list, a map showing the locations of the BALI Members. This page will also feature members who carry out work nationally, for larger or more specialist jobs.

Latest news and events will also feature on the homepage, news from both BALI and the wider industry and any national or regional BALI Events. This will be updated regularly and members are encouraged to send BALI news and editorial to be featured.

BALI has also agreed a partnership with Hort Week to provide a BALI Jobshop, featuring a comprehensive directory of employment opportunities within the landscape industry, the BALI Jobshop can be accessed through www.bali.org.uk. BALI members will receive a discount when posting a vacancy on the BALI Jobshop.

The new website is also a forum for BALI to promote the association, the benefits of using a BALI member, benefits of being a member and offer consumer advice about landscaping.

Users, both members and non members can also get the latest news and information regarding The BALI National Landscape Awards, The Register of Land Based Operatives Scheme (ROLO Scheme), UK Skills and the National Highways Sector Scheme 18.
