Highlights from the winners of the big industry awards announced recently

BALI AWARDS

The British Association of Landscape Industries celebrates high quality construction in its awards. One highlight was an elegant garden by design consultancy Graduate Gardeners, set within an official Area of Outstanding Natural Beauty, which won both the 'design and build' and 'best use of lighting' awards. The 'international award' was the Sheraton Changsha Hotel in China, by International Greenview Landscape Design, which mixed traditional and modern style.

This Graduate Gardeners design won two awards.

Jinny Blom designed this Interior winner by ISS Waterers Landscape.
